### FORCES OF NATURE

Orchids are not only gorgeous but they can withstand the heat, humidity, wind and salt air. The flower's brightly colored petals have amazing contrast against the coast. Fluffy hydrangeas are also an option—create a statement by adding in some peonies, roses and dusty miller.

### GARDEN PARTY

You're a laid-back bride with a carefree vibe, but you still want your flowers to align with your decor. Round up some scabiosa, larkspur, star of Bethlehem and sunflowers for a bouquet as unique and colorful as you.

### TIMELESS TRADITIONAL

Trends come and go, but nothing is as traditional as roses and calla lilies. Create a monochromatic white arrangement with gorgeous lilies, white roses and a touch of greenery. This polished look will never go out of style.

### READY ROMANTIC

You've been planning your big day your entire life and your flowers must live up to your fairytale expectations. Roses and peonies in soft and deep pinks are pretty and whimsical—perfect for every Cinderella fantasy.
